

U.S. Asks Big Steel Union To Meet Soon

Hopes To Halt Strike Set For Sept. 25

Washington, Sept. 16—(AP)—In a new attempt to prevent a crippling steel strike, the government asked CIO steelworkers and their employers to end their long-distance sparring over a contract and sit down with mediators here Monday.

The strike now is set to begin in eight days — at 12:01 a.m. Sunday, Sept. 25. President Truman has persuaded the union and the steel companies to agree on an 11-day truce to study the recommendations of his fact-finding board issued last Saturday.

Cyrus S. Ching, director of the Federal Mediation and Conciliation Service, summoned management and union representatives to the mediation session here at 8:30 a.m. (CST) next Monday.

Meaning Of Words

In doing so, he expressed the belief there is a "good possibility" that the failure of the union and employers to start negotiating on the fact finders' recommendations "springs not from irreconcilable fundamental differences in views, but from the meaning of words."

The president's board recommended against the wage increase demanded by the union, but counseled adoption of a pension-insurance "package" paid for by the companies which would raise the operating costs of most steel makers by 10 cents an hour for each employee.

The union, headed by Philip Murray, who also is president of CIO itself, expressed its willingness to accept the 10-cent package of fringe benefits. The steel industry, however, balked at agreeing to paying the full cost of the pension-insurance program and wishes to negotiate further on this point.

Murray Accepts

Murray telegraphed acceptance of the invitation late today. United States Steel, biggest company in the industry, said it would be represented. So did Bethlehem Steel. Other companies announced they would send in their acceptances upon formal receipt of Ching's invitation. Ching had expressed confidence that both sides would be fully represented.

Declaring that a work stoppage in steel would be disastrous, Ching said in a statement:

"I want to afford the parties every reasonable opportunity to come to a meeting of minds and to eliminate their misunderstandings."

His aim, he said, is to arrive at a "general formula" which can serve as a base for practical decisions by the industry and the million member union.

Ching said that he was prompted to issue the mediation call because of the "debate by telegraph" which has gone on since Saturday between union and steel officials.

Section Of Cotton Belt Line Blocked By MoPac Strike

St. Louis, Sept. 16—(AP)—Traffic on a section of the Cotton Belt railroad was blocked again today as a result of the strike that has idled all trains of the Missouri Pacific railroad for eight days.

Members of four operating brotherhoods are on strike against the Missouri Pacific.

Picket lines set up by the strikers blocked traffic over the Cotton Belt's main line between Dupu, Ill., and Illinois in southeast Missouri. The 125 miles of track is leased by the Cotton Belt from the Missouri Pacific.

Heads of three of the unions in Cleveland, O., advised Cotton Belt officials the pickets had been ordered not to interfere with Cotton Belt traffic and that there was a misunderstanding on the part of the pickets. But the picketing continued.

Two Found Dead In Plane Wreckage

Jefferson City, Mo., Sept. 16—(AP)—Two private fliers were found dead in their wrecked plane north of St. James, Mo., today.

The wreckage was spotted from the air by a highway patrol search plane.

The fliers, who had been missing since they left St. Louis Wednesday night on a flight to Columbia, Mo., were L. E. Salch and Robert H. Sanders, employees of the McDonnell Aircraft company of St. Louis.

The wreckage was scattered over a wooded area.

Salch's parents live in Bloomington, Ill.

Atlantic Defense Plan Nears Completion

Washington, Sept. 16—(AP)—Plans for lining up the defenses of western Europe and North America under a single grand strategy were virtually completed here today by officials of the Atlantic alliance.

These plans, calling for a coordinated regional military organization under direction of a defense committee, will be laid before the Council of the North Atlantic Treaty at its first meeting tomorrow. Quick approval of the initial blueprint is expected.

In advance of that meeting eleven senators meanwhile proposed creation of a highly trained, professional police force to serve as a protective vanguard for the 12-nation Atlantic alliance. Members of this force would be volunteers from smaller European countries united under the 20-year treaty.

The proposed police force would be financed out of part of the \$1,314,010,000 foreign arms aid bill now awaiting Senate action.

Senator Sparkman (D-Ala.), one of the plan's sponsors, said:

"Instead of spending our millions on building up the weak and dispersed armed forces of the smaller nations, we can build a powerful collective force to defend them all."

Tomorrow's Atlantic council meeting will top off a week of extraordinary diplomatic activity which has produced a new degree of coordination of cold war policies among the Big Three of the western bloc.

Secretary of State Acheson reported to President Truman and the cabinet today on his round of conferences with British Foreign Minister Bevin and Foreign Minister Schuman of France. All indications were that he gave the cabinet an optimistic picture of American-British-French cooperation in Europe and Anglo-American agreement in fighting communism in the Far East.

From the White House, Acheson returned to the state department to receive in steady succession five of the foreign ministers of smaller nations who have come here for the Atlantic alliance session tomorrow.

Four Soldiers Flee Russ Prison

Champaign, Ill., Sept. 16—(AP)—Charles W. Dale, 76-year-old dean of Champaign county weekly newspaper publishers, today announced the sale of his three-paper group.

The group, known as Dale Publications, was bought by R. J. Shaffer and Edward L. Cavitt, both of Minerva, O. Cavitt is a former associate editor and advertising manager of the Minerva Leader. Shaffer was in the business and mechanical departments of the same paper.

The three papers, which Dale owned and operated for 52 years, are the St. Joseph Record, the Ogdon Courier and the Oakwood Township News.

Show Human Ashes To Prove Murder In Delaware Trial

Dover, Del., Sept. 16—(AP)—Human ashes and a charred stick were presented at the lonely hearts trial today in an effort to establish the corpus delicti—that is, to prove that a murder was committed and the slain man was Wade N. Woodridge.

The prosecution claimed the ashes, which were in small cardboard containers, were those of the 67-year-old suitor of Mrs. Inez Brennan. Also, that the charred stick was used by 16-year-old Robert Brennan to stir the ashes when he was cremating body.

Woodridge, a 67-year-old Bedford county, Va., carpenter, purportedly was shot to death last Oct. 10—the day he arrived at the Brennan farm to meet the women he came to know through lonely hearts correspondence.

Robert is being tried on a first degree murder charge; his 16-year-old mother as an accomplice.

The ashes and the stick were presented by Major Melvin G. Leisure of the Delaware state police.

Commercial Artist Arrested By G-Men For Counterfeiting

Chicago, Sept. 16—(AP)—A commercial artist who dabbled in counterfeiting as a hobby was held for trial today.

Secret service agents said they seized a press, plates and other equipment for making railroad tickets, driver's licenses and \$20 bills in the Warrenville, Ill., home of Harry W. De Lorme, Jr., 37.

Harry D. Anheiler, Chicago secret service chief, said De Lorme made \$20 bills but was afraid to pass them. Then he made counterfeit driver's licenses and railroad tickets but never tried to dispose of them, Anheiler added.

De Lorme pleaded guilty to possessing counterfeit materials when he was arraigned today before U. S. Commissioner Edwin K. Walker. His bond was set at \$500, pending trial.

HONOR BERNADOTTE

Lake Success, Sept. 16—(AP)—The United Nations today unveiled a plaque honoring the late Swedish Count Folke Bernadotte, Palestine mediator, who was slain in Jerusalem just a year ago.

Ilggenfritz Denied Defense Post For Keeping Steel Job

Washington, Sept. 16—(AP)—The Senate today rejected Carl A. Ilggenfritz for a high defense post because he refused to give up the \$70,000-a-year salary he draws from U. S. Steel Corp.

The chamber turned down President Truman's nomination of the "Big Steel" executive by a vote of 40 to 28.

Mr. Truman had picked Ilggenfritz as \$14,000-a-year chairman of the U. S. munitions board to direct advance planning for nationwide industrial mobilization in the event of another war.

Administration predictions that the nomination would be confirmed back-fired after Senator Byrd (D-Va.) told the chamber it would be setting a "bad precedent" and that a man cannot serve two masters.

Ilggenfritz made an eleven-hour offer to work for the government for nothing—if that was legally possible—but insisted he could not afford

to give up his salary as a vice president of U. S. Steel. He is in charge of the company's purchasing.

As chairman of the munitions board, Ilggenfritz would have had the task of assigning military buying and fixing priorities for buying. President Truman had personally approved the policy of Ilggenfritz drawing two salaries, and in this connection administration leaders cited the president's frequent complaints that he was unable to get high caliber men for important but low-paying government posts.

Leading the fight against confirmation, Senator Byrd said he was not questioning Ilggenfritz' character, integrity or ability. He pointed out, however, that U. S. Steel has a big stake in military orders.

As opposition to the appointment snow-balled, Senate administration leaders said they would accept a proposal by Senator Edwin C. Johnson (D-Colo.) that congress pass a special bill permitting Ilggenfritz to work for the government on a dollar-a-year token basis.

Chairman Tydings (D-Md) of the Senate armed services committee said the suggestion was agreeable to him. But others protested that would not solve the problem, and the chamber voted to reject Ilggenfritz outright.

Engel, Swindler, Tries To Get Out Of Jail On Bond

Chicago, Sept. 16—(AP)—Sigmund Engel, the fascinating floater, tried to get out of jail on bond today.

But Prosecutor Alex Napoli refused the real estate Engel's lawyers offered, stating it wasn't valuable enough.

Although Engel's bond was reduced again today, the 73-year-old confidence man is slated to spend tonight as he has spent all his other nights lately—in his cell at the County jail.

Earlier today, his bond on two fugitive warrants was reduced from \$15,000 to \$10,000 each, and last Monday the federal court cut his bond on two confidence game indictments from \$40,000 to a total of \$12,500. Engel still couldn't make it.

Several widows have charged Engel with sweet-talking them, then disappearing with their money or jewels, or both.

Bails Out Of Jet Going 600 MPH, Lives To Tell It

Washington, Sept. 16—(AP)—A young pilot recently bailed out of a jet plane speeding more than 600 miles an hour and lived to tell about it, the Navy disclosed tonight.

Officials believe this is the highest speed at which any man has escaped from an airplane and survived.

Lt. Jack L. Fruin, Elmhurst, Ill., a Navy fighter pilot, based at Cecil Field, Fla., was flying at 40,000 feet in a heavy overcast near Cherry Point, N.C. on Aug. 9 when his banshee twin-jet fighter went out of control.

The plane went into a high speed spiral dive at more than 600 miles an hour. It lost 10,000 feet before Fruin could escape.

To get free of the plane he used a mechanical bailout device, a pilot ejector seat. A power charge carried blows the seat and pilot out of the plane.

Fruin reported that the ejector worked smoothly. After the seat was clear of the plane—a matter of seconds—Fruin detached it. Then he opened his parachute. He landed in water about 30 feet from the shore, and swam to safety.

Will Probe Crash Of B-36 Which Killed Five Men

Fort Worth, Tex., Sept. 16—(AP)—What caused the first crash of a B-36, which killed five men, is the question at Carswell Air Force base tonight.

The giant bomber should have flown—but didn't.

The great ship failed to take off last night and roared into a lake at 100 miles per hour. Three bodies have been found. Two are missing. Eight men escaped with slight injuries.

"After questioning all of the men involved in the accident, we are more in the dark than ever as to its cause," said Maj. Gen. Roger M. Ramey, Eighth Air Force commander. "When we salvage the plane, we may find the answer."

A grim, slivery island—broken wreckage of a plane as big as three five-room houses—marked the scene of the crash in Lake Worth. A diver found the body of Major Joseph L. Lemming, Jr., of Dayton, O., in the plane today. He located one other body which was not brought to the surface immediately.

TRAFFIC ACCIDENTS KILL 145 IN ILLINOIS

Springfield, Ill., Sept. 16—(AP)—Traffic accidents took 145 lives in Illinois during August, a drop of 11 from the same month a year ago, the state highway division reported today.

The fatality toll of 1,094 for the first eight months is nine per cent lower than a year ago.

Fear Strike As Lewis Halts Welfare Funds

Pal Of Murder Inc. Head 'Taken For Ride'

Valley Stream, N. Y., Sept. 16—(AP)—For unexplained reasons, the murder charge was dropped and he went to prison on a narcotics charge instead. There were plenty of rumors that Little Farfel had "squealed."

But former New York Assistant District Attorney Burton Turkus, who prosecuted the case, said today that wasn't true. And he scoffed at speculation that Cohen was slain for "singing."

Police worked instead on a theory that Cohen, who recently bought into a Brooklyn gas station business, was slain because of activities as a bookmaker or for preying on bookmakers.

Cohen was released only recently from Atlanta federal penitentiary where he did seven years on the narcotics charge.

His elderly mother, with whom he lived in Brooklyn, never knew he had been in prison. When she learned he had been killed, she moaned:

"Oh Farfel. Oh, Farfel. Such a good boy. He came home from California eight months ago, and bought this house a month later. Such a nice house."

The dapper, red-haired Cohen was slain eight years to the day after the opening of the trial that sent Lepke and two other Murder, Inc., mobsters to the electric chair.

Cohen was indicted with Lepke, Buchalter.

Rajk Confesses Plot On Hungary

Budapest, Hungary, Sept. 16—(AP)—Laszlo Rajk, former Hungarian police boss and No. 2 communist, confessed fluently today to charges he plotted with Americans and others to smash Hungary's government in an anti-Soviet crusade led by Yugoslav Premier Marshal Tito.

Pouring self-denunciation into a people's court microphone for four hours, the poker-faced, 40-year-old Rajk described the revolt plot as part of a sweeping plan by Tito "to lead and organize and Anti-Soviet movement in every people's Democracy (Russian Satellite)."

Rajk and seven others went on trial for treason.

He declared Tito planned a military invasion of Hungary, the incitement of border strife with Bulgaria, the liquidation of Greek communist guerrilla forces and the incorporation of Albania into Yugoslavia.

Rajk showed eagerness to pile detailed blame on himself for acts since he began what he called his double-dealing with the communists in 1931.

He declared that Alexander Rankovic, Tito's interior minister and police chief of Yugoslavia, told him of the Tito plan and said Rankovic promised: "When action starts, the United States will somehow paralyze the Soviet Union so the people's democracies will be unable to act."

Rajk named a former U.S. minister to Hungary, Selden Chapin, and two other Americans in the plot. He accused by name Yugoslav officials and others on trial as British and French spies.

Told Chapin

Rajk said he told Chapin about his talks with Rankovic, including the asserted promise to contain Russia.

"Chapin hesitated, but later he admitted that such plans existed in the United States," Rajk said.

(In Washington, Chapin denied any talks with Rajk about a plot to overthrow the regime and said Rajk was certainly a victim of communist police pressure. He recalled Rajk as "severe, disagreeable and uncooperative" in talks they had on official matters. Chapin now is assigned to the U. S. State department in Washington.)

The chief defendant in the treason trial, Rajk said that he got his first orders as a spy for the United States in 1945 from Lt. Col. George Kovach, a Hungarian—speaking member of the U.S. military mission sent to Hungary after the country was liberated from German control.

Mother Charged With Killing Of Daughter, 6 Days

Chicago, Sept. 16—(AP)—A true bill charging a young mother with murdering her six-day-old daughter was reported voted today by the grand jury.

The woman, Mrs. Dorothy Skeoch, 22, was quoted by police as saying she strangled the child only a few hours after she arrived home from the hospital where the baby was born on Aug. 18.

Police found the baby, Susan, dead in bed with a plastic diaper knotted tightly around her neck.

At first, Mrs. Skeoch told police the baby had been strangled by a "negro prowler." Several hours later she admitted the killing, police said.

Mrs. Skeoch, a former payroll clerk at the University of Chicago, said she had been depressed because her husband, Thomas, 21, was out of a job.

"There was no money coming in and I couldn't stand seeing the baby go through what I have gone through," she said.

Mrs. Len, who has ordered a new furnace, will have her old one removed today.

Mrs. Lane has been promised her old one back.

Operators' Negotiator Resigns Post

Washington, Sept. 16—(AP)—Fear of a nationwide coal strike mounted tonight as miners welfare fund payments were suspended by trustees headed by John L. Lewis due to lack of funds.

The sudden order halting payments was quickly followed by news of the resignation of one of the trustees, Ezra Van Horn of Cleveland. Van Horn, representing coal operators, quit in a letter dated Sept. 14—indicating it was not prompted by today's developments.

In fact, Van Horn reportedly cast the lone vote against suspending the miners' pension and welfare benefits.

Van Horn, in his letter to the coal owners, threatened to take court action to be relieved of his trustee duties unless the operators quickly replace him.

In announcing the suspension of welfare payments union leader Lewis refrained from saying "Strike." But it was widely anticipated the action heralded a walkout Monday when eastern and southern miners are due to resume their three-day week digging duties.

Just in advance of the trustees' action 8,000 western miners walked out.

The multi-billion dollar welfare fund had been seriously diminished by refusal of some southern operators to continue chipping in their 20-cent-a-ton royalty.

No Legal Basis

Lewis warned earlier this week that "social convulsions" were in store if the southerners did not change their mind. But the southerners persisted in their refusal, saying there was no legal basis for the payments since their contract with Lewis has expired.

So today the welfare fund trustees, headed by Lewis, suspended pensions, disability pay and other benefits to miners because of "diminishing revenues." Senator Bridges (R-N.H.), one of the trustees, said the fund had dwindled from \$30,000,000 on July 1 to \$14,000,000 on Sept. 1.

Industry spokesmen feared the benefit suspension meant a full-scale strike.

This prospect arose at a time when the nation also is facing a threat of a strike Sept. 25 in another basic industry, steel. The government today asked both sides in the steel dispute to meet here Monday.

A strike in either industry, if long continued, would cripple the nation's economy, now apparently on the upswing after the post-war recession.

Three-Day Week

The contract between the United Mine Workers and the operators ran out this summer. Changing his previous policy of "no contract, no work," Lewis put miners east of the Mississippi on a three-day week. The idea apparently was to reduce stocks of mined coal and improve his bargaining position.

The southerners countered with: "No contract, no royalty payments." Now Lewis has announced: "No royalties, no benefit payments."

After the soft coal welfare fund trustees announced the halt on benefits, trustees of the similar fund for anthracite miners followed suit. This action was announced at Hazleton, Penna., by Thomas Kennedy, vice president of the U.M.W.

The idea apparently was to equalize conditions for all miners.

State Employment Drops In July

Chicago, Sept. 16—(AP)—Nonagricultural employment in Illinois declined 0.8 per cent from June to July, the Illinois Department of Labor announced today.

July employment in nonagricultural establishments was about 3,039,700, a drop of 25,560 from the preceding month. Compared with July, 1948, it was down 4.6 per cent.

Most Illinois manufacturing plants showed a decline in employment, although some—particularly automobile and leather and leather products plants—reported increases. Nonmanufacturing industries, including retail trade, coal production and government agencies, showed a decrease, while contract construction reported an increase of 2.3 per cent.

WHEATHER

The Norbury Sanatorium, cooperative observer for the U.S. Weather Bureau, yesterday reported the temperatures for Friday as follows: High, 65; low, 47; and at 6 p.m., 62.

Forecast for Illinois—Saturday mostly cloudy with rain and mild temperatures. High 72 to 76.

THE 'VEEP'
The country has a new kind of vice president, even a new title. Alben Barkley calls himself the "Veep"—a tonal contraction of the initials "V.P." Instead of giving voice to homilies about the need of a 5-cent cigar, making a record as presiding officer of the senate or giving astute advice at cabinet sessions, Barkley is making his name on the road, as a sort of good will envoy for the administration and drummer for democracy.
Barkley believes in vital democracy, as pointed out by Milburn Akers in the Chicago Sun-Times. He likes people. He likes to tell jokes. Most of them are old and many can be traced to Irvin S. Cobb's published collections, but he usually gives them a new twist and the public thinks they are new. Anyway, he tells them well.
The "Veep" makes a good trouble-shooter for the administration. If anybody can bring peace between the northern liberals and southern Dixiecrats, the "Veep" can do it. He made a hit in Chicago where he appeared recently at a Democratic powwow. How well he succeeded in smoothing the slightly troubled waters of Illinois Democracy, caused by Chicago Mayor Martin Kennelly's criticism of the Stevenson administration, remains to be seen. Chicago still wants state money and Governor Stevenson still can't give it—he blames the Republican senate.
Mr. Barkley radiates good humor. He has been made happy by a new romance. There is just one bitter thought that intrudes. If it hadn't been for a strange combination of political circumstances, he would be president today instead of being the "Veep." He surely must feel that he deserves the top job more than the incumbent does.

Picking Another Man's Wife

New York—(AP)—Thirty lovely women looked at me with provocative eyes.
And they all wanted me to say—Yes, you're the one.
Yep, one after the other they came up, all thirty of them, all with that same look in their eyes. And I had to say, "No, not you" to 29 of these beautiful dames.
It should have been easy to do this. After all, every one was married—and their husbands were looking on. But that only made it harder.
What a spot to be in!
No, this isn't a nightmare. I didn't dream it. I merely acted as a judge in the Mrs. America contest at Asbury park, the Jersey Shore resort. It is supposed to be every man's ambition to be a judge in a beauty contest. This could be true only because every man hasn't tired it. Once is plenty.
Thirty finalists
The thirty wives were the finalists in a contest to pick, from all the hausfraus in the United States, the one who was both the most beautiful and the best homemaker.
On the face of it this task was worse than looking for a needle in a haystack (who ever lost a needle in a haystack anyway?). It was like searching for a walnut tree that also sprouted roses.
As the thirty lovelies paraded past, first in evening gowns, then in bathing suits, the task of the judges was to weed the contestants down to twelve, next to six and finally to three.
Back and forth they swished. A judge next to me was working furiously at his chart.
"How are you judging them?" I asked. He looked at a girl in evening dress silhouetted against a spotlight.
"Strictly Legs"
"I'm voting for the ones that didn't wear slips," he said.
"And you?" I asked another judge.
"Strictly legs," he said. "I've been a leg man for years."
As another judge seemed to be concentrating on bosoms and crosely suggested I find a specialty of my own, I began scoring on teeth, eyes, hairs and nostrils. There didn't seem to be much else in sight.
An official rushed over and said: "Here, you're not judging beauty. You're a homemaker judge."
My own wife, Frances, gave a fiendish chortle in her favorite ear-mine.
"That dates you, rover boy," she said. I felt the weight of years.
He Picked The Pretties
My job wasn't to pick the pretties. It was to help judge the pretties the pretties had made with their own pretty hands—crocheted dollies, home-sewn baby dresses, and preserved fruits and vegetables. Four jars of pickles, carrots and peaches later our verdict was in.
My choice, Mrs. Cincinnati, a winsome brownette, was the audience favorite. The other entrants also voted her the most congenial girl in the contest. But she didn't

SHE STILL "WANTS TO BE ALONE"—Erstwhile movie queen Greta Garbo plans a comeback with a film to be made in Europe, but to newsmen she's still the camera-shy one. While sightseeing in Rome (left, above), Miss Garbo wore the standard Hollywood dark glasses disguise. Finding this not wholly effective, she turned out for a stroll on the beach near Rome with a new "seclusion" hair-do, right. In addition, there was an escort to "run interference" against photographers. Annoyed by it all, Garbo fled to Paris to make the film, originally scheduled for Italy.

New York Stock Market

New York, Sept. 16. —(AP)—The stock market poked its way forward today through a tangle of strike threats in two basic industries—steel and soft coal.

Gains were fractional for the most part but were well distributed and a number of issues climbed to new tops for the year.

Trading got off to a shaky start but picked up speed as buying persisted. Turnover passed the 1,000,000 share mark for the fifth session in a row.

Some brokers suggested that the market's stability yesterday, when the labor news in the steel and coal industries became more and more foreboding, generated new buying

interest. Demand for railway issues in particular, though, was somewhat puzzling in view of the effect a soft coal tie-up could have on the earning power of some of the major carrier systems.

Highs for the year were established, among others, by White Sewing Machine, Houston Oil, Seaboard Oil, Foster Wheeler, Halliburton, Sunshine Mining, Standard Gas and Electric 34 preferred, Transamerica, and International Paper.

THE FUTURE HIT NEW SEASONAL HIGHS BEFORE DECLINING

Chicago, Sept. 16. —(AP)—Wheat futures climbed more than a cent a bushel to new seasonal highs today

before profit-taking cut into the upturn.

Early buying by export interests indicated the government again was in the cash market, traders said following heavy purchases the first four days in the week. December, May and July wheat futures hit new seasonal peaks.

Late selling was influenced partly by late trade report that the government had reduced its wheat buying price a cent a bushel at Kansas City, to 21½ cents over the Chicago September contract. F.O.B. vessel at the Gulf. The government is offering 15½ cents over September for cash wheat. F.O.B. Philadelphia, unchanged from yesterday.

Corn climbed with wheat, but reacted somewhat at times. Soybeans were strong most of the time.

Receipts of grain in carlots were: wheat 26, corn 126, oats 40, rye 4, barley 35, soybeans 8.

Wheat closed ¼ to ½ higher than the previous finish. September \$2.10½-½, corn was ¼ up to ½ down. September \$1.25½-½, oats were ½ higher to ¾ lower. September \$1.45, soybeans were 1 to 2 cents higher. Speakers At Republican County Picnic

Former Congressman Everett M. Dirksen of Pekin (extreme right) was photographed Thursday afternoon as he addressed a Morgan county Republican audience at the fair grounds. The Pekin man, who will announce himself as a candidate for U. S. Senator within a few days, blasted the Marshall plan, "bloated" budget, and the Truman administration in general. Left to right in picture are Mayor Ernest L. Hoagland, City Attorney William L. Fay, Co. Commissioner Walter Fearnough, Congressman Sid Simpson of Carrollton, A. E. Williamson, chairman of county Republican committee, and Mr. Dirksen.

Sister Heard Brother Died In Oklahoma; He Can Prove It's Untrue

Mrs. Ellen E. Nolan, 1415 South West street, believed for a number of years that her brother "who went to Oklahoma," was dead.

She heard it in a 'round about way. Some of her Missouri relatives reported they learned the brother passed away.

The years drifted by. Mrs. Nolan received no further information. She is a member of a family of 14 brothers and sisters, and the family scattered after growing up. She did not dream that she would ever see her Oklahoma brother again.

A touching drama was enacted at Mrs. Nolan's home here Sept. 5 when a tall, wiry man strode up the steps and embraced his sister. The visitor was Enos E. Kelch of Oklahoma City, the man who Mrs. Nolan believed was deceased, until she learned differently in August.

Make Up For Lost Time
Hale and hearty despite his 71 years and the hard work he has done, the Oklahoman and his sister are making up for the 40 years they were separated. Each takes delight in recalling their childhood spent in Lincoln county, Mo., before the big family grew up, and go out of touch with one another.

Mr. Kelch and Mrs. Nolan last saw each other in 1903, when the family gathered at Louisville, Mo., around the grave of their father, Thomas P. Kelch. After that each member of the family went his way.

Before coming to Jacksonville, Mr. Kelch wrote two letters to his sister, who is 77 years old. But he did not tell her he was coming to see her. His arrival was a complete surprise.

"Sure, we knew each other," Mr. Kelch said, when asked if his sister knew him.

"Would Know Him Anywhere?" Mrs. Nolan nodded affirmatively. She declared she would know her brother anywhere, no matter how long he had been absent.

Kelch has had an interesting career since he went to Oklahoma Territory in 1898. For many years he was a rider for cattle ranches. "Yep, I've rode from Oklahoma to Kansas City with 10,000 cattle," he recalled. "There were 22 riders for 10,000 cattle, and we got them across Kansas and to market in good shape."

Kelch was asked if he ever engaged in skirmishes with Indians after going to Oklahoma Territory. "No, I never fought any Indians, but used to chase them off when they tried to steal cattle. There were always a few Indians trying to cut a cow or two out of the herd," he explained.

After working as a rider Kelch was employed on a railroad for several years.

Brother Is Spokesman
Mrs. Nolan lets her brother do most of the talking about their unusual reunion. But her eyes sparkle with pleasure that he has come back to her. It is easy to see that she is deeply thrilled by his presence in flesh and blood—rather than as a memory.

Mrs. Nolan moved from Missouri to this city in 1914. Her husband died some years ago. She has worked at several places, including Barr's Laundry, and was cook at Kellogg's restaurant and Passavant hospital.

Five of the original 14 in the Kelch family are now living. Mr. Kelch and Mrs. Nolan hope that a reunion of the entire family will be possible some of these days.

Home Adviser And Her Assistant

Acting in their capacities as home adviser and assistant home adviser respectively, Mrs. Frances King (left) and Mrs. Emma Lou Brant outline activities for the units in the Morgan-Scott Home Bureau. Mrs. King, who holds a degree from the University of Georgia, was formerly home adviser for Cass county. She succeeds Mrs. Mildred M. Seaman, who resigned.

Mrs. Brant, a former teacher, is a graduate of the University of Illinois.

NEW LINGERIE
Crepe nylon yarns are now being used in lingerie. Called "Crepelon," this new nylon lingerie yarn has a finely pebbled weave that recalls crepe de chine. Crepelon claims all the advantages of nylon in that it is easy to wash, quick to dry and needs little or no ironing. To clean the inside of your refrigerator, sprinkle a little baking soda on a clean damp cloth, and rub over the surface.

Ministers Urge Greater Interest In Church, Home

The Jacksonville Ministerial Association issued an appeal Friday to people of the Jacksonville community to keep Wednesday night of each week for the church and home.

A committee was appointed by the Ministerial Association to create greater interest in midweek services, and to promote closer family relationship. The committee prepared the following statement:

"The Ministerial Association is vitally interested in Jacksonville and vicinity. It realizes that the church has been and is a molding agency for great ideals and spiritual adventures. The ministers feel that the church should have a larger place in community thought and life. It asks the people of Jacksonville and vicinity to keep Wednesday night of each week for the church and home.

"The home needs to be rebuilt; the church needs to be revived. Families need to become better acquainted with each other. Wednesday night is a good night to accomplish these things.

"The churches of the association are offering special services also, on Wednesday night, in an effort to build better family and church relationship. The school and the local Youth Center have endeavored to plan their schedule to keep Wednesday night as clear as possible in order to cooperate with the plan of the ministers. The basic program of the ministers is to develop in Jacksonville, a deeper church consciousness."

Miss Co-Ed Take Heed

Time for a little pre-school planning. That important college major, the campus wardrobe is being bundled for totting to schools all over the country. And preparations take on as much importance as college boards.

This semester is very much a sweater season. Twin sets (cardigan and slipover), fitted cardigans over casual dresses, dressy date sweaters with yoke interest or scroll necklines, especially dyed-to-match sweaters and skirts. All join the roster of back-to-school fashions.

And it's a wise Miss who follows the swing to sweaters with a few thoughts on her own personal grooming. She'll want an effective deodorant, and there's much to be said for a handy little package of ordinary baking soda!

Patted on with the palm of the hand, it does wonders as a neutralizer. More than that, it's a neat solution to the trick of packing one item for many uses.

The same package, for instance, does double duty as a dentrifice. A little baking soda is poured in the palm of the hand. The toothbrush is dampened with cool water and dipped in the powder. And if a good mouthwash is desired, one teaspoon of soda to one-half a glass of water will do the trick.

This year's Campus Queen will keep her head on the bright side, outside as well as in, so she remembers her "daily 100" with the hairbrush. But she doesn't spoil the effect with a dirty brush. She finds a clean hair brush and comb are little effort when soaked in a basin of water with baking soda added. (Three tablespoons to a quart of water).

In short, one handy little package of baking soda serves many grooming details. And this year's Campus Miss overlooks none.

She keeps her shoes shined, her teeth brushed, her hair bright. She knows that top votes go to sweater styles, to color-matched jerseys and tweeds, to the over-all smart campus look, and to the girl who aids and abets this look with a clean, fresh start of her own.

Reunited After 40 Years

Enos E. Kelch, 71, of Oklahoma City, Okla., and his sister, Mrs. Ellen E. Nolan of this city are renewing family ties after a 40 years' separation. Mrs. Nolan was informed some years ago that her brother had died, not learning that information was false until last August.

Jim Voiles Will Have To Find Another Home

By MRS. RICHARD GILLER

Carrollton—Jim Voiles, who has spent 50 of his 59 years as a resident of the Greene County Farm, will soon lose the home which he has known since childhood because of action taken this week at the meeting of the Greene County Board of Supervisors.

The Board voted to sell all the personal property of the farm and rent the 360 acre farm with its two houses and outbuildings.

Voiles, who dates back to the day when families were brought to the home for care, remembers no other home. To him the Farm is something of which he is an integral part and he looks upon it as if he were its owner.

During the ten years which Mr. and Mrs. Everett Painter have been superintendent and matron of the farm, Voiles has assisted Mrs. Painter in her work in the house and is one of those to most appreciate the trip to the Greene County Fair which is a yearly treat given by the Painters to the residents. Residents at the farm, numbering five, are now all men, the eldest being Thomas Sutton who is nearing 80, and who has made his home there over ten years.

Under the management of Mr. and Mrs. Painter the farm has been prosperous and presents that appearance to the passerby. The large house with its 20 rooms is painted and both it, the lawn and the outbuildings present a well cared for

appearance. The five room tenant house on the farm has also been recently redecorated and also presents a pleasing appearance.

The members of the Board of Supervisors were dinner guests Tuesday at the farm and with Mr. and Mrs. Painter as hosts as has been their yearly custom for the past ten years.

In addition to their plans concerning the county farm the board heard Mrs. L. A. Dickson of this city who was the spokesman for a group of women who have plans for the originating of a Greene County Historical Society for the preservation of the things in the county of historical value. Mrs. Dixon asked the board for a room in the court house to display the articles of historical value should the Historical Society be formed but no action was taken on the matter by the board.

To make an economical salad dressing mix a half teaspoon of dry mustard with a half teaspoon of salt and two teaspoons of sugar; add a dash of freshly ground pepper and a sprinkling of paprika. Mix these seasonings with a cup of undiluted evaporated milk; then add a tablespoon of vinegar gradually, stirring until thickened. Store in refrigerator.

MEMORY LINGERS ON—Hitler is by no means dead as far as best-selling publications on the Berlin newsstands are concerned. This display on fashionable Kurfurstendamm shows various newspapers rehashing legends of Hitler, Mussolini and Goebbels. Some of the headlines read: "Goebbels Without Mask—The Case of Lyda Baarova," "A Woman Saved the Party," "Mussolini as Lover," and "Hitler as Strategist." One illustrated paper explains it handles the subjects from a "human point of interest."

DONALD LITTLER TO SPEAK AT ROODHOUSE

Roodhouse — Donald Littler of Jacksonville will speak here Sunday at the public ceremony instituting the Roodhouse-White Hall DeMolay chapter.

Mr. Littler, a member of the executive board of the Eli Bridge company of Jacksonville, will present a brief history of the Eli ferris wheel, from which the new chapter will take its name.

The service will be held at 2:30 p.m. Sunday in the local high school gym, with the Alton DeMolay chapter conducting the degree work.

George Withey of Springfield, superintendent of the Illinois division of youth and community service, will be the principal speaker.

Stuff cooked dried prunes with cream cheese and sprinkle with slivers of toasted almonds; serve on wafercrust with French dressing and let this salad double for dessert.

So Gaynell's little sister had de-
cided to get a job. Had Fritz
planted this seed, too?
"Dear me," Emily said, but she
wore her sweetest smile again. "A
model! Does sound rather startling.
If you know what I mean. I sup-
pose a photographic one should
be different. An office, instead of
a studio. The things one hears
about artists! Though I've known
some very nice ones. I do see now
my interests must coincide with
my home. I meant that they
should, from now on. My family
must come first. And you know,
darling, The Simple Life is really
quite the thing. People are all go-
ing back to the farms."
"I can't imagine you going back
that far, Mother," Gaynell said.
She, too, pushed back her chair.
She would have to get going. "I
am sure, however, that you still
can lead your Simple Life, to some
degree. Even though I am going to
marry Barry."
Emily fluttered after her into the
hall, the ruffles on her lacy negligee
fluttering, too; her pretty
hands gestulating; murmuring
protestations still. Something
about, "But, darling, there won't
be any point to it, if you marry
Barry ... with all that money."
... I do think you shouldn't be in
such a hurry, darling. ... Such a
different life, so interesting for
me ... and even something more
about having intended talking with
a real estate man about the big
house today.
Gaynell did not answer, ex-
cept to bestow a dutiful daugh-
terly kiss on her mother's cheek
after she got into the leopard coat,
adjusted the small green beret, and
started out for her day.
THE situation was too ironic to
appeal to her sense of humor.
For once lacking. Now that she
was not going to marry Fritz

121st Illinois College Year To Open Monday, Dr. Hudson To Speak

Illinois College will open its 121st year Monday afternoon when approximately 150 new students will convene in Jones Chapel to hear an address of welcome by President H. Gary Hudson. Parents of the new students are invited to attend.

Following the address, the students will go to divisional meetings where they will be given placement tests in English and in general scholastic aptitude.

At that time the parents will be guests at a reception in the president's house. A campus supper will follow for the new students, their parents and members of the faculty, after which the students will be honored by the Illinois theatre at a movie party.

500 Students Expected
Upperclassmen will return to the campus Tuesday and registration will continue through Wednesday. Total enrollment is expected to near 500.

A new student handbook, entitled "Campusology 101," has been published by Alpha Phi Omega, national undergraduate service fraternity, of which the Illinois College chapter was established last May. The booklet gives a brief history of the college, tells the origin of college traditions, instructs students in registering, lists campus rules and regulations and describes opportunities in extra-curricular activities. Each new student has been mailed a copy.

Assembly Wednesday
One of the more important points of view, will be the opportunity to meet with upperclass student leaders. At an assembly for freshmen Wednesday in Jones chapel, representatives from various clubs and organizations will be on hand to describe briefly how one may try out for the band, the newspaper, the debate club and other campus activities. That evening President and Mrs. Hudson will hold a reception for all students: freshmen between 8 and 9, and upperclassmen between 9 and 10.

Classes will begin Thursday morning at 8 o'clock.
The first football game of the season will be played at 8 p.m. Friday, Sept. 23, when the Blueboys will meet James Millikin university at the Jacksonville high school field. Following the game, an all-college mixer will be held in Baxter Hall. Churches of Jacksonville have extended an invitation to all freshmen to attend services Sunday.

Says Half Of State Firms Violated Fair Labor Laws
Chicago, Sept. 16.—(AP)—A Department of Labor official said today that more than half the Illinois firms investigated during the fiscal year of 1946 had violated one of the basic provisions of the fair labor standards act of the Public Contracts act.

Thomas O'Malley, regional director of the wage and hour and public contracts division of the department, made the report.
He said 48 per cent of the Illinois firms investigated during the fiscal year ended June 30 had violated the overtime provision. Under the fair labor standards act, employers must pay time and a half after 40 hours a week. Under the public contracts act, they must pay time and a half after 40 hours a week or eight hours a day.

Two per cent of the firms had violated the minimum wage provision under one of the acts, and five per cent had violated the child labor provisions, O'Malley said.

Flanders Says US A-Bombed Japan To See Results
Washington, Sept. 16.—(AP)—Senator Flanders (R-Vt.) said today that the U.S. dropped the atomic bomb on Japan to "find out what it would do"—even though the Japanese previously had put out five peace feelers.

The Vermont Republican made this statement in a news conference. At the same time he gave out copies of a speech prepared for delivery to the Senate. In this he declared available indications are that "the mass murder of civilians is the strategic objective of our Air Force."

Flanders urged that the President and defense officials balance the federal budget by slashing military making the deepest cut in Navy appropriations passed by congress, bought by the Air Force is far too funds. He suggested also that 170 additional B-36 bombers to be many unless they can be adapted to do "high-explosive pin point bombing" as well as carrying the atomic bomb.

Flanders contended the atomic bomb should be used, if war comes, against hydroelectric plants, railway yards, oil refineries and other factories not located in thickly settled areas.

PMW Welfare Fund Will Continue
Springfield, Ill., Sept. 16.—(AP)—The Progressive Mine Workers union will continue to make welfare payments to its miners and their widows, President John W. Marchand said today.

Asked by reporters how the PMW welfare fund is faring, Marchand said: "We have sufficient funds and there is no reason whatsoever for us to stop payments."

The welfare fund is financed by 20 cents a ton in payments by coal operators. The PMW is an independent union with more than 15,000 Illinois members.

Mu Iota Sigma Meets At I.S.D.; Officers Elected

Harold Stark was elected president of Epsilon chapter, Mu Iota Sigma, at its initial meeting of the year Thursday night at the Illinois School for the Deaf. The organization is a national fraternity with research as its interest.

Mr. Stark will be assisted by Warren Flower, vice president; Miss Marcia Melvin, secretary; Miss Beverly Jacobs, treasurer; Miss Frances Frisch, historian; and Mrs. Arthur Samore, parliamentarian.

Plans for the national convention Oct. 8-10 in Chicago were announced by Mrs. Samore, presiding officer. A series of panel discussions and addresses by well-known educators will present frontiers of audiology and new trends in the teaching of reading.

Official delegates will include Mrs. Samore, Mrs. Marion Thorn and Miss Beverly Jacobs, alternate. Lloyd Graunke, program chairman, outlined a well-rounded program for the current year, which will include study of recent publications concerning education of the deaf, professional movies and projects to be taken up in interest groups.

The next meeting is planned for Tuesday, Oct. 11.

Chapter Potluck Held At Bluffs For The Grigsbys

Bluffs—Floy Chapter, No. 566, Order of the Eastern Star held a potluck supper in the Masonic Hall Tuesday evening honoring Mr. and Mrs. Glenn Grigsby, past matron and patron of the chapter, who are moving to Springfield. Mrs. Josephine Alters, on behalf of the chapter, presented them with a gift. Both guests responded. The committee, Mrs. Virginia Lemme, worthy matron, Mrs. Lola Lemme and Mrs. Mildred Eilers were in charge of arrangements.

Married In Springfield
Miss Geraldine Schmidt, daughter of Mr. and Mrs. Frank Schmidt, and Thomas Stephenson of Valley City were united in marriage in a pretty setting in the Laurel Methodist church in Springfield at 6 o'clock Saturday evening. The double ring ceremony was read by Rev. Lewis D. Hopper.

They were attended by Mrs. Jean O'Brien Evans and Ralph Jones. The bride chose for her wedding a blue suit with black accessories and a corsage of red roses. Both Mrs. Evans and the mother of the bride wore corsages of yellow roses.

A supper was enjoyed by the wedding party and Mr. and Mrs. Schmidt, Mrs. Bess O'Brien and Mrs. Ralph Jones.

The newlyweds remained in Springfield over the weekend and are making their home with her parents until living quarters can be found in Bluffs. Mrs. Stephenson is a graduate of the Bluffs schools and until recently was employed at Nesco in Jacksonville. The groom is a Wabash railroad employee.

California Nuptials
GM 2/c Robert Dugan of the U.S. Navy and Miss Delores Leroy of San Francisco were united in marriage at St. John's Methodist church in San Francisco, Calif., Sept. 6, at 7 o'clock with the pastor of the church using the single ring ceremony. A number of friends witnessed the ceremony.

The couple came to Bluffs for a short visit with his parents, Mr. and Mrs. James Dugan. The groom, who has been in the Navy for the past eight years, is enroute to gunnery school at Washington, D. C., and they will reside there during the training period.

Mrs. Dugan is a native of North Dakota, but has lived on the west coast for the past several years.

The Harvey Girls Feted At Chicago Railroad Pageant

Chicago, Sept. 16.—(AP)—The Harvey girls—old, the others young—met together for a little shop talk today at the Chicago Railroad Fair.

The occasion was the visit to the colorful "Wheels A-Rolling" pageant of Mrs. Bertha Thomas, 71, who started as a waitress at a Fred Harvey restaurant in Colorado Springs, Co., in 1910.

Mrs. Thomas chatted gaily with a group of pretty singers who act out the part of Harvey girls in the pageant cast. The younger Harvey girls know only from books and movies of the old days when singing waitresses entertained along the Santa Fe route.

Today Mrs. Thomas was a special guest of the Fred Harvey system at a luncheon aboard an Illinois Central diner car.

This time however, she sang no songs... waited on no one's table. She was a lady of leisure and loved it.

Sues 6, Charging X-Ray Burns Made Him Lose His Leg

Chicago, Sept. 16.—(AP)—A painter and decorator today sued six persons associated with an X-ray laboratory, claiming that X-ray burns forced amputation of his right leg.

Adolph Hansen, 61, asked \$115,000 damages in the Circuit Court suit, which charged medical malpractice. The suit named Dr. Fred F. Schwartz, owner of the Central X-ray and chemical laboratory, and five associates.

The suit said medical examiners supported Hansen's claim that "negligence, carelessness, incompetence and malpractice," especially on the part of a defendant known only as Bill, who operated the X-ray machine, were the reasons for the leg amputation. Hansen said he took the X-ray treatments because of carcinoma on his knee.

Others named as defendants, in addition to Dr. Schwartz and Bill, were Dr. Nathan H. Radner, Dr. Harold P. Moody, Dr. A. W. Clark, and W. H. Love, Ph.D.

Stabs Wife After She Refuses To Come Back To Him

Fargo, N.D., Sept. 16.—(AP)—Juan Flores, 23, of Crystal City, Texas, was jailed here today on a charge of assault with a dangerous weapon after he rushed into the police station and said, "I just killed my wife."

"How?" asked officer Lee Hanson. "I knifed her," Hanson quoted Flores as answering.

"Where?" asked the officer. "Down the street," Flores replied. Squad cars and ambulances were dispatched and police found Mrs. Flores walking, apparently headed for a hospital. A hunting knife was buried to the hilt in Mrs. Flores' back, police said. The knife was just to the left of the woman's spine.

Flores told officer Hanson that his wife left him three weeks ago. The Texan said he has been trying unsuccessfully to get her back, Hanson said.

Resources Of Loan Associations Pass Billion In Illinois

Chicago, Sept. 16.—(AP)—Resources of Illinois savings and loan associations have passed the billion dollar mark, the president of the Illinois savings and loan league reported today.

Charles A. Zundalek told the 70th annual convention of the league that assets of both state and federal chartered associations, as of June 30, totaled \$1,135,358,065.

The figure makes Illinois the third state which has savings and loan associations with combined resources of more than \$1,000,000,000, Zundalek said. Ohio and New York previously reported having passed the mark.

Selective Service Reorganized; List 8 Branch Offices

Completion of the reorganization of the Selective Service system in Illinois was announced today by Colonel Paul G. Armstrong, state director of selective service for Illinois, who said:

"We have gathered together in eight group offices the 217 boards in Illinois. The Chicago group office, located at 226 West Jackson boulevard, includes not only the boards from Chicago and Cook county, but also the boards from Du Page, Grundy, Kendall, Lake and Will counties."

The new setup places Morgan county and adjacent territory in Group Office 6, located at 402 North Fourth street, Springfield. William Bower has been named clerk in charge of the office which will take care of 18 west central Illinois counties: Adams, Brown, Cass, Christian, DeWitt, Greene, Logan, Macon, Menard, Montgomery, Morgan, Moultrie, Piatt, Pike, Sangamon, Schuyler, Scott and Shelby.

Wheat Crop Needs Both Phosphorus And Nitrogen

Urbana—Even on fertile soils, it's always a good idea to include some soluble phosphate and nitrogen fertilizer when you're seeding wheat. These plant foods will get the seedling wheat started well and will produce top yields.

This suggestion was given Friday by L. T. Kurtz, soil fertility specialist in the Illinois College of Agriculture.

Soluble phosphate is especially needed if wheat follows soybeans. Even on rock-phosphated land, wheat may need some soluble phosphate to get it started and to produce top yields.

Kurtz says a popular mixture is 200 pounds of 3-12-12 fertilizer. When heavy residues are plowed down or when wheat follows oats, you'll need more nitrogen—200 pounds of 8-8-8 would be better.

Several different analysis could be used, depending on soil fertility needs. But the point Kurtz stresses is that the fertilizer drilled with wheat should always contain some soluble phosphorus and some nitrogen.

Kurtz also suggests an early spring application of nitrogen for top yields. It's been found several times that top-dressing wheat in the spring with 75 pounds of ammonium nitrate or 100 pounds of ammonium sulfate is a paying proposition. Heavier rates make the wheat lodge, though, and smother the legume seeding.

Navy Tells Men To Stop Criticism Of Army, Airmen

Washington, Sept. 16.—(AP)—The navy ordered its officers today to batter down the hatches on criticism of the army and air force.

A telegram from Secretary of the Navy Matthews and Admiral Louis Denfeld, chief of naval operations, went out to all commands instructing officers to clear any observations on policy matters with the secretary.

The message left no doubt that the order resulted from Captain Jack Crommelin's recent blast against the military planners in the Pentagon building. Crommelin charged that the army and air force brass was wrecking U. S. Naval power.

Crommelin himself was ordered transferred yesterday from his assignment with the joint chiefs of staff to a less conspicuous post in the navy's air warfare division. The four-striper is a skilled flier and a veteran of the war in the Pacific.

Acheson Opposes Tightening Laws Of Immigration

Washington, Sept. 16.—(AP)—Vigorous opposition by Secretary of State Acheson to proposed legislation aimed at tightening immigration barriers against subversive aliens was disclosed today.

He has written Chairman McCarran (D-Nev) of the Senate judiciary committee, author of the bill, that the legislation would "drastically interfere" with the conduct of U. S. foreign relations.

One part of the bill, Acheson said, "would virtually result in a break of diplomatic relations, at least with all communist-dominated countries, and perhaps with others as well."

He added "it would impair the activities and functions of the United Nations and might even render impossible the maintenance of its headquarters in the United States."

The bill on which a judiciary subcommittee now is holding hearings would arm the government with new powers to block the entry of subversive aliens and to throw out any already here.

Emergency Polio Fund Drive Totals \$1,865

Appreciation to all whose efforts and money contributed to the success of this community's Polio Epidemic Emergency Drive was expressed Friday by John Agger, chairman of the Morgan county chapter of the National Foundation for Infantile Paralysis.

"The true thanks comes, of course, from the youngsters whose recovery will be speeded by the funds we have made available here this past week," he said. "The response here has been both heartening and inspiring. Total collections for the week have amounted to \$1,865.01."

The drive came to an official close here Thursday evening. In every county through the nation, similar one week drives have been held in response to the nation-wide appeal for additional funds to continue financial aid to increased numbers of polio patients without slowing up scientific research and professional education.

Although the drive ended officially today, any one who has not yet contributed may do so by mailing his donation directly to POLIO, care of the local post office.

Organizations helping with the local drive were The Catholic Daughters of America, Rotary, American Legion, Exchange Club, Veterans of Foreign Wars, Junior Chamber of Commerce, Optimist club, Lions Club, Kiwanis Club, High School Student Council, Amalgamated Clothing Union, and the Trades and Labor Assembly.
